He was largely responsible for its early organization and development, and the efficiency at the present time is in a large measure due to his skill and forethought in the early organization stage. He returned to Canada in July, 1940, becoming Vice Chief of the General Staff and subsequently Chief of the General Staff. The arduous duties of this office were discharged with outstanding ability. He returned to the United Kingdom in December, 1941, as G.O.C., 2 Canadian Division. He had been A/Commander and Commander, First Canadian Corps since December, 1941.
